

THE TOP 10 REASONS TO USE A WORLD LOGO PROMOTIONAL CONSULTANT

REASON #1: World Logo Promotional Products Consultants go beyond just selling products. Successful promotion campaigns don't happen by chance. To realize goals, promotional products programs must be carefully planned, taking into consideration the audience, budget and, of course, the ultimate result to be gained. While it's true that you can buy a product anywhere, an experienced WL PPC can help you solve problems, plan a program and get results.

REASON #2: World Logo Promotional Products Consultants have access to vast product research resources, including an extensive database, which contains more than 800,000 products. Yes, you can find a mug online, but a WL PPC can find hundreds of mugs, in a multitude of colors, sizes, shapes, materials, designs, etc. Have you saved money if you get the mugs and they are not the right color? Is it worth the extra savings if you get the mugs and they are so breakable due to inferior materials that they are virtually unusable?

REASON #3: World Logo Promotional Products Consultants are in tune with the trends, including hot items and the newest products and processes. A WL PPC can add creativity, innovation and imagination to your overall program to achieve your goals. Many online services show you the products they want to sell; a WL PPC will listen to what you want and help you find the right product for your needs. And a WL PPC can provide tangible samples that appeal to your senses - taste, touch and feel!

REASON #4: Your World Logo Promotional Products Consultant is more than just a salesperson. Chances are you will buy promotional products more than once in your life. Once a company uses a WL PPC, that relationship will continue for years—and even decades. Your WL PPC is someone with whom you have worked, someone you know and trust. In many cases, companies use a WL PPC as part of the creative team, even including him or her in marketing meetings.

REASON #5: Personalized service is the role of a **World Logo Promotional Products Consultant**. When going online, your selection is what the Internet company determines to make available. When you work with a WL PPC, your selection is determined by your needs and goals, enhanced by the experience, creativity and recommendations of a professional who has your best interests at heart. Online, you're a faceless, nameless buyer. With a WL PPC, you're a client with your own personal shopper, receiving service along with ideas and prices. When you order online, who monitors your order and your deadline? Your WL PPC has your interests in mind. Seldom do you receive that kind of personalized, "hand-holding" customer service from an unknown online company.

REASON #6: World Logo Promotional Products Consultants can offer experienced advice on how (and IF) to imprint items. You may have found the perfect key chain, but will your logo imprint on it? Will it be recognizable? Some things don't work or there might be something else that will work better. A qualified WL PPC can explain to you the best printing process for your program, your imprint and the product you've chosen.

REASON #7: World Logo Promotional Products Consultants can save you money in the long run. Many times, a price you see in a generic catalog or on the Internet does not cover many "hidden" costs involved - set-up, imprint duplication, shipping, etc. A WL PPC can help you avoid unexpected and unbudgeted costs by quoting the total price up-front.

REASON #8: World Logo Promotional Products Consultants will work with you to get your artwork imprinted properly. For example, you want your company's logo embroidered on a golf shirt. How do you insure it will be done properly, and with the correct colors? A WL PPC can work with you to accurately transfer your artwork, including correct fonts, size, spacing and many other important factors. And your Consultant's commitment to quality customer service will guarantee your satisfaction with the finished product.

REASON #9: World Logo Professional Promotional Products Consultants can assist you in developing a workable distribution plan for your products. Distribution of a promotional product is as important as the item itself. Research shows that a carefully executed distribution plan significantly increases the effectiveness of promotional products. But what if the cost of distributing your product is more than the product and more than your expected ROI (return on investment)? A WL PPC can help you avoid unexpected problems like this.

REASON #10: World Logo Promotional Products Consultants are the experts in their field. When you're sick, you want a doctor who has the specialization and training to help you. WL PPCs have gone through extensive training, and have all been in the field between 5 – 20 years. WL PPCs meet the highest qualification standards in the industry. There's no need to spend all your time on the Internet or searching through catalogs. Your WL Promotional Consultants will come to you - like a doctor who makes house calls!
